

Maltego Exercise

1. Task Description

Please perform your own maltego analysis. You will work with the Community Edition and before you begin you need to setup a free account on <https://maltego.com>. Your task is to do a short analysis of <https://compass-security.com>. Your report should include the following content:

1. list domains owned by Compass Security
2. list ip addresses used by Compass Security

2. Solution

1. Start with the entity domain and name it <https://compass-security.com>

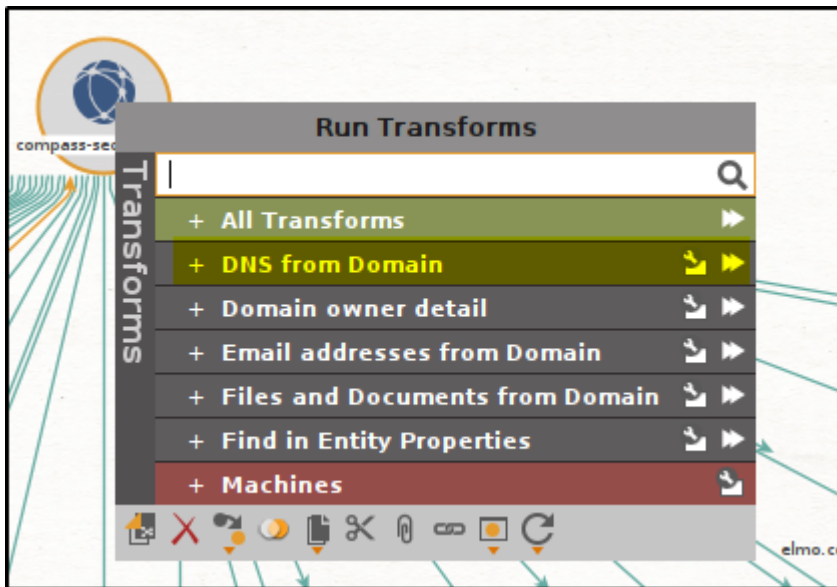

2. Run Transform To Domain (find other TLDs)
